

The Villa at Dunbar Rock

November 4, 2017

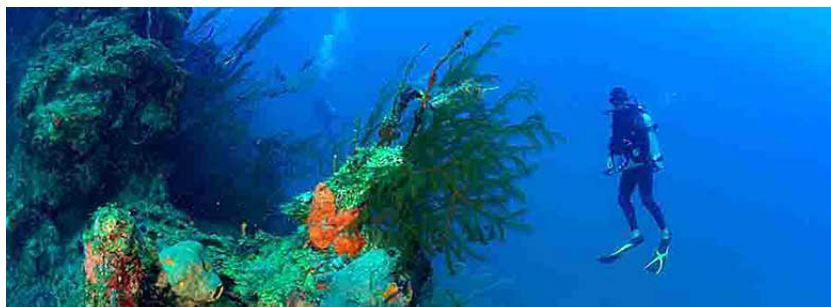

The Villa on Dunbar Rock is not just a resort – it's a dream vacation destination. Visits to Dunbar Rock offer a unique dive vacation experience from start to finish. Perched on a cay with 360° views of Sandy Bay, Guanaja and surrounding cays, this unique resort blends beauty, serenity and something unidentifiably special in a laid-back, inviting atmosphere.

All rooms include a desk, casual seating and closet with digital safe and laundry basket for the free laundry service. There are quiet, wall-mount air conditioners as well as ceiling fans for those who prefer the fresh sea air.

Guanaja's fringing reef is a protected marine reserve making it an ideal spot for scuba diving. Part of a volcanic and coral mountain range, Guanaja marks the beginning of the second largest barrier reef in the world.

Visibility is generally around 100 feet. During the rainy season (roughly October to January) visibility can dip below the usual, though we are always able to scout out the areas that offer the best conditions. Currents are mostly mild to non-existent.
