

Little Cayman Beach Resort

April 14-21, 2018

The Cayman Islands are located 150 miles south of Cuba in the Caribbean Sea, 170 miles northwest of Jamaica and 480 miles south of Miami. The "Sister Islands" are comprised of Little Cayman and Cayman Brac, and are located about 90 miles northeast of Grand Cayman.

Little Cayman Beach Resort is situated on a private beach on the south shore of Little Cayman, bordered by the South Hole Sound, a turquoise lagoon protected by the reef. This two-story hotel offers modern facilities in a boutique setting. Pastel pink with a white picket fence, this resort features 28 garden rooms and 12 oceanfront rooms.

All rooms are air-conditioned, comfortable and come with flat-screen TVs, iPod docking stations, curved shower rods, malachite-and-marble accents, carved Honduran hardwood furnishings, refrigerators and coffee makers.

The shop also provides 80- and 63-cubic-foot cylinders, freshwater rinse tanks, a dive gear storage area and restrooms. There are three new Mako 30 cfm, electric-powered, water cooled dive compressors, complete with a state-of-the-art filtration system and plenty of storage capacity, as well as a Nitrox Technologies Membrane system for Nitrox dives.
