

Turks & Caicos Aggressor II

May 19-26, 2018

The beautiful Turks and Caicos Islands are located 575 miles southeast of Miami. The islands have one of the longest coral reefs in the world making it a premier diving destination. One of the most valuable possessions of the islands are the white sandy beaches, which in total cover 230 miles and are complimented with crystal clear waters. The islands are flat but depending on the island, the terrain can vary from sand dunes to lush green vegetation.

The *Turks and Caicos Aggressor II* departs from Providenciales, better known as *Provo*. Throughout the week guests will visit Providenciales, West Caicos and French Cay. The sheer walls of Providenciales begin at 40 feet, plunging into the deep blue abyss and include crevasses and ledges that are decorated with huge orange Elephant Ear sponges, Gorgonians and Crimson Rope Sponges..
