

## Belize

March 16-23, 2024

Located between Mexico and Guatemala, Belize is the perfect destination for exploration, relaxation and of course – diving! Belize is home to the world's second largest barrier reef, a massive Blue Hole and three of the only four true coral atolls found in the hemisphere.

Underwater Belize offers a combination of reefs blanketed with coral and sponge growth and walls beginning as shallow as 20-40 feet.

While the Blue Hole is Belize's best-known dive site, there's much more to discover. The waters are rich, clear and warm, offering great conditions for beginners and also some exciting diving more advanced divers.

The marine life that inhabits Belize is extraordinary. Everything from schools of tarpon, turtles and stingrays to a wide variety of tropical species, including the occasional reef or hammerhead shark.
