

## Cayman Brac

Feb 17-24, 2024

Touted as one of three tranquil jewels of the Caribbean, Cayman Brac is blessed with natural treasures below and above water. Water temperatures range from 78° to 86°.

Cayman Brac is regularly ranked among the best dive locations in the world! Excellent visibility, abundant sea life -- including sharks, turtles, rays and coral -- and an average water temperature of around 82 degrees are all part of the appeal.

Notable underwater attractions are the walls of both Brac and Little Cayman and the frigate wreck. The walls around the two islands are pictures of perfection. Arches, swim-throughs, cracks, gorgonia, sponges and fans all compete for a divers attention. Shine a light on the muted blue structures and the reds, yellows, oranges and purples will spin all your color wheels at once. The diving in Cayman Brac is sure to impress! A Russian frigate was purchased from Cuba and sunk in 1996 within swimming distance of the north side of the island. It is perfectly situated for divers of all skill levels. The stern is in shallow water and the deepest section of the bow rests on the sand at about 90 feet. Fish, both large and small, are turning the wreck into their home.
